## Enquiry Ebony's Homework Challenge

Hi Year 5,

This half term your homework project is to create a Viking shield!

You could use cardboard to create a circular shield, and then colours and tin foil to create patterns.

You could also do some independent internet Research- try googling 'Viking shield' for inspiration.

Make them as big as you like and make sure you bring them into school so we can put them on the topic display.

Good Luck

Ebony x

Here are some examples
